

## CB-01

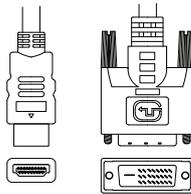

High-quality copper cable with gold-plated conductors for HDMI to DVI digital video conversion required in multimedia environments.

Designed to maintain signal strength and deliver high-definition video, the CB-01 cable is perfect for multimedia installations featuring AG Neovo displays. The gold-plated connectors protect against corrosion that degrades high-definition TV and video signals. The CB-01 is also double shielded to eliminate electromagnetic or radio frequency interference, resulting in maximum display clarity for cutting-edge multimedia environments.
