

RAM[®] MOUNTS

Material Handling

about RAM[®] Mounts

For more than 20 years, RAM[®] Mounts has led the material handling industry with our rugged design and unique mounting solutions for tablets, scanner guns, vehicle-mounted computers, radios and phones. RAM[®] offers a modular line of mounting solutions for all types of rails, vehicles, devices and environments. The high-strength bases utilize a rubber ball and socket system that offers world-class vibration dampening and shock absorption. RAM[®] Mounts are made in the USA and backed by a lifetime warranty.

the RAM[®] difference

Lifetime Warranty

RAM[®] products are backed by a lifetime warranty against manufacturer's defect for decades of worry-free use.

Modular Design

The rubber ball and socket design offers a secure hold with vibration dampening and component interchangeability.

Designed & Developed in House

Each RAM[®] Mount is designed in house using the most advanced industry techniques.

Made in the USA

Every single RAM[®] Mount is manufactured in the USA with an attention to detail and quality.

3-D Printing

RAM[®] is a pioneer in using 3-D printing technology to develop and test new products.

Aluminum Die Casting & Injection Molding

RAM[®] Mounts are made to last a lifetime with the highest quality aluminum, composites, and other materials.

our partners

Customer Focus. RAM® owes its success to loyal customers like you. RAM® products are incredibly robust, functional and set the standard for military, commercial, consumer and industrial applications. In addition, RAM® offers mounting solutions so rugged and reliable that they have become a favorite within the material handling industry.

OEMs Trust RAM®. RAM® Mounts isolate and dampen harmful shock and vibration. OEMs know that pairing their products with RAM® means their products will perform better and last longer in a wide range of applications and environments.

Safe, Secure Mounting. RAM® Mounts help you get the most out of your devices and the task at hand. The unique rubber ball and socket design prevents slippage while protecting your device from harmful shock in high vibration situations.

Fit to Your Needs. With thousands of mounting configurations to choose from, RAM® is sure to have the ideal solution for your device mounting needs. Trust in RAM® to offer you the most versatile and robust mounting solution available.

how it works

Choose a base.

Choose from a variety of bases to help secure your device where you need it.

Choose an arm.

Choose an arm based on your desired length and placement.

Choose a cradle.

RAM® offers a wide selection of cradles and adapters for your specific device.

select ball size

Ball Size Selection Guide

Each ball size in the RAM® Mounts rubber ball and socket system supports a different amount of weight and withstands increasingly intense vibration. Use the guide below to determine the ideal size for your system based on your device weight and application. RAM® recommends moving up a ball size in environments with extreme shock and vibration.

VIBRATION DAMPENING

MODULAR

ADJUSTABLE

SLIP RESISTANT

1" Diameter Ball

B Size

Holds up to 2lbs
Ideal for cup holders, cameras and other light-weight devices

1.5" Diameter Ball

C Size

Holds up to 4lbs
Ideal for tablets, 2D barcode scanners and light-weight laptops

2.25" Diameter Ball

D Size

Holds up to 10lbs
Ideal for vehicle-mounted computers and rugged laptops with moderate vibration and shock

3.38" Diameter Ball

E Size

Holds up to 25lbs
Ideal for vehicle-mounted computers and rugged laptops with extreme vibration and shock

RAM-202U (round base)

Forklift Overhead Guard Plates

The overhead guard is a convenient location for attaching vehicle-mounted computers, printers, scanners and tablets. Utilizing two identical stamped steel plates, the plates fasten to most lift cages and overhead guards. This sturdy mount allows for the attachment of bases with any diameter ball. The plates include the spacing 100x100mm and 75x75mm VESA hole patterns as well as the AMPs 4-hole pattern. Multiple ball bases may be attached to the same plate to keep all your devices in a convenient location.

Part Number	Includes
RAM-335	Overhead guard plates
RAM-335-246	with 1.5" (C) ball base
RAM-335-D-246	with 2.25" (D) ball base
RAM-335-E-246	with 3.38" (E) ball base

- RAM-201U (standard length arm)
- RAM-202U (round base x2)
- RAP-396U (Power-Grip™ scanner gun cradle)

Tough-Claw™

The RAM® Tough-Claw™ is the perfect mounting base for quick and easy installation and removal without tools on round, square or odd shaped rails and bars. The Tough-Claw™ can be clamped on rails from .625" to 2.25" in outer diameter. Ideal for mounting tablets, scanners, radios or other accessories, the Tough-Claw™ is a versatile solution that can be quickly removed or adjusted to fit any scenario.

Part Number	Ball Size	Fits Rails
RAP-B-400U	1" (B)	.625" - 1.5" diameter
RAP-B-404U	1" (B)	1" - 1.875" diameter

RAM-D-247U-4	2.25" (D)	4"	1.75"
RAM-D-247U-5	2.25" (D)	5"	1.75"
RAM-E-247U-25	3.38" (E)	2.5"	1.75"

Square Rail Clamp without Hardware

The no-hardware configuration of the square rail clamp enables you to customize the mount to a variety of rail thicknesses and use cases. Select a base that fits one side of your rail and use your own 5/16" diameter hardware to attach the plates together. You can also bolt into walls or other flat surfaces to provide modular mounts throughout the yard and warehouse.

Part Number	Ball Size	Bolt to Bolt Dimensions
RAM-B-247U-2NH	1" (B)	2"
RAM-B-247U-3NH	1" (B)	3"
RAM-247U-25NH	1.5" (C)	2.5"
RAM-247U-4NH	1.5" (C)	4"
RAM-247U-5NH	1.5" (C)	5"

Round Rail Clamp

Secure your mount on any round rail to ensure that your tablet, inventory management device or scanner is at the ready. With two clamp and ball sizes this mounting solution fits most round overhead guard legs and holds a variety of device weights.

Part Number	Ball Size	Fits Rails
RAM-271U-12	1.5" (C)	1.25" - 1.875" diameter
RAM-271U-2	1.5" (C)	2" - 2.5" diameter

Twist-Lock™ Suction Cups

RAM® Mounts offers a variety of suction cup mounts that are designed to keep your equipment secure with a flexible mounting option for glass and non-porous surfaces. The mechanical Twist-Lock™ seal of the suction cup latches onto flat surfaces with a strong connection that is resistant to temperature fluctuations and lateral forces.

Overview of Tablet Solutions

RAM® device cradles secure your tablet in any environment allowing you to implement the technology that your business needs. All cradles utilize the AMPs hole pattern to attach any AMPs-compatible device adapter.

X-Grip® for Phones and Tablets

The X-Grip® is a versatile mount that adapts to the tablet, phone, hand-held device or GPS unit you have chosen for your warehouse or vehicles. The spring-loaded patented grips keep your device steady and in close reach.

EZ-Roll'r™ for 7" - 8" Tablets

The EZ-Roll'r™ provides a low-profile and sturdy form-fit mounting solution for many consumer devices. The patented roller design of this cradle allows for smooth placement and removal of the device. This cradle is intended for devices that are not in a protective case.

Part Number	Fits
RAM-HOL-AP20U	iPad mini 4
RAM-HOL-AP14U	iPad mini 1, 2, and 3
RAM-HOL-SAM8U	Samsung Galaxy Tab 4 7.0
RAM-HOL-SAM6U	Samsung Galaxy Tab 7.0 Plus
RAM-HOL-SAM4U	Samsung Galaxy Tab 7.0

Tab-Tite™ and Tab-Lock™ for 9" - 10" Tablets

The Tab-Tite™ and Tab-Lock™ use spring-loaded interchangeable end cups to hold larger tablets in place. These cradles can accommodate most protective cases and ruggedized tablets.

The Tab-Lock™ features a keyed lock to secure your tablet and deter theft.

Rugged Hand-Held Device Cradles

Easy to insert and remove from the spring-loaded cradle, your hand-held device can be kept safe, secure, and is ready in countless environments. The hand-held cradles integrate USB, power and serial ports to ensure the device remains as functional as it is protected. These holders are form fitting and compact, yet tough enough to keep your device safe.

Part Number	Compatible Devices	Power input	Ports
RAM-HOL-IN19PBU	Intermec CN50	12-28V DC bare wire	USB Type A, mUSB, DB9 Serial
RAM-HOL-IN19PCU	Intermec CN50	12-28V DC cigarette plug	USB Type A, mUSB, DB9 Serial
RAM-HOL-IN11PU	Intermec CN3 & CN4	12-28V DC cigarette plug and bare wire	USB Type A, DB9 Serial
RAM-HOL-SYM3PU	Motorola MC5574, MC5590, MC55A0, MC65 & MC67	12-28V DC cigarette plug and bare wire	USB Type A, DB9 Serial

Spring-Loaded Cradles

Customize your mobile work station with a spring-loaded cradle. These low-profile cradles secure a variety of dynamic printers and scanners to keep your mobile device working for you in the field. At each end of the spring-loaded cradle are small side clamps that are designed to fit cleanly around the device.

Part Number	Clamping Width	Height	Compatible Devices
RAM-VPR-102	8" - 14.5"	Max 1.75"	Canon BJC-85, Canon i80, Canon i90, Canon iP100
RAM-VPR-103	9" - 15.5"	Max 2.5"	HP DeskJet 450, HP DeskJet 460, HP DeskJet 470, HP OfficeJet 100
RAM-VPR-104	5.625" - 9.5"	Max 1.75"	Fujitsu FP-1000
RAM-VPR-105	6.625" - 10.5"	Max 2.5"	Printronix M4L
RAM-HOL-QD1U	2" - 10.75"	2.625"	Zebra MC9200, Zebra MC9190-Z

Form-Fit Printer Cradles

Create the optimum mobile office environment, regardless of vehicle or application with RAM® Mounts form-fit design for mobile printers. These mounts add little to the overall size of the printer. Multiple mounting options are available to accommodate a wide variety of configurations. RAM® enables mounting of the printer where it is best for you.

Part Number	Compatible Devices
RAM-VPR-101	Brother PocketJet 3, Brother PocketJet 3 Plus, Brother PocketJet 6, Brother PocketJet 6 Plus, Brother PocketJet 673, Brother PocketJet 7 series
RAM-VPR-106	Brother RuggedJet RJ-4030, Brother RuggedJet RJ-4040

Power-Grip™ Scanner Gun Cradle

Keep your scanner guns in an ergonomic and user-friendly location with this rugged holder. The open bottom design enables scanning while in the holder. Replaceable elastomeric fins grip the handle of the scanner for a secure hold.

Part Number	Internal Width	Internal Length	Internal Depth
RAP-396U	3.47"	2.16"	4.9"

Drop-N-Lock™ Scanner Gun Cradle

The Drop-N-Lock™ is designed to hold most types of Pistol Grip handles. The spring-loaded lever on the side of the cradle will securely hold the scanner in the cradle. Simply drop the scanner handle into the holder and it will lock into place.

Part Number	Internal Width	Internal Length	Internal Depth
RAP-317U	1.46"	2.5"	5.11"

post clamps

RAM-GDS-DOCKL-V2-SAM19U (locking GDS® dock for Samsung Tab S2 9.7)

RAM-GDS-SKIN-SAM19U (IntelliSkin™ with GDS Technology™ for Samsung Tab S2 9.7)

RAP-300-1U (Magnetic Power Plate™ adapter)

RAM-KEY1-BT (Bluetooth keyboard)

Post Clamp Swing Arm Systems

These extensions and swing arms are customizable by pivoting or adjusting on a post and terminate in an attachment point for a RAM® ball to offer a flexible mounting solution. Ensure that the ergonomics of your mounting solution are comfortable and mount equipment in hard-to-reach spaces with the items below.

Part Number	Component	Specifications
C-Size Components		
	RAM-247U-4P1 Base	square rail clamp with .5" NPT post for 4" wide bars
	RAM-261U Arm	attaches to .5" NPT post includes socket for 1.5" (C) sized ball
	RAM-261-1U Arm	6" extension arm attaches to .5" NPT post
	RAM-261-ADJU Arm	adjustable arm attaches to .5" NPT post includes socket for 1.5" (C) sized ball
	RAM-261-2U Arm	6" extension arm attaches to .5" NPT post includes two 1.5" (C) sized balls
D-Size Components		
	RAM-D-247U-4P1 Base	square rail clamp with 1" NPT post for 4" wide bars
	RAM-D-261U Arm	attaches to 1" NPT post includes socket for 2.25" (D) sized ball
	RAM-D-261-1U Arm	6" extension arm attaches to 1" NPT post

accessories

seen in this photo:

RAM-D-202U-CRO1 (adapter for the Crown Work Assist®)

RAM-D-201U-C (short arm)

RAM-D-202U-23 (rectangular base)

RAM-KNOB9HU (Hi-Torq™ wrench for D sized arms)

🔒 Pin-Lock™ Security Knob and Key

The Pin-Lock™ security knob adds tamper and theft deterrence to your B and C sized mount by replacing your standard knob. The low-profile knob is an ideal accessory to keep your mounted electronic device safe and locked into position.

Part	Fits
RAP-S-KNOB3U	any B sized arm
RAP-S-KNOB5U	any C sized arm

Keyed Locking Knob

The keyed security knob adds tamper and theft deterrence to your B and C sized mount by replacing your standard knob. The keyed knob is an ideal accessory to keep your mounted electronic device safe and locked into position.

Part	Fits
RAM-KNOB3LU	any B sized arm
RAM-KNOB5LU	any C sized arm

Hi-Torq™ Wrench

The RAM® Hi-Torq™ Wrench is used with the knob on D sized arms. This wrench provides the extra leverage needed to tighten the mount in cold weather or in small spaces. Tightening the knob with the wrench delivers security and vibration dampening.

Part	Fits
RAM-KNOB9HU	any D sized arm

Bluetooth Keyboard

The RAM® Bluetooth keyboard can be used with any tablet for efficient and comfortable data entry. Pair this Bluetooth keyboard with the RAM® Keyboard Accessory with Roto-View™ to create the ultimate solution for data entry on your forklift or in your vehicle.

Part	Dimensions
RAM-KEY1-BT	11.2"l x 4.72"w x .91"h

Keyboard Adapter with Roto-View™

This is a cost-effective way to mount your tablet and keyboard together. The Roto-View adapter plate allows for adjustment between portrait and landscape viewing of the device and attaches to any RAM Mounts tablet cradle. The kit adds a magnetic mounting plate allowing for easy placement and removal of your keyboard. The Roto-View can be used separately as well.

Part	Overall Length	Fits
RAP-TAB-KEY1-300U	13.75"	B or C sized bases with the AMPs or diamond hole pattern
RAM-HOL-ROTO1U <i>Roto-View™ plate only</i>	—	B or C sized bases with the AMPs or diamond hole pattern

Handi-Case™

The RAM® Handi-Case™ is capable of keeping all of your paperwork, packing slips and other items organized anywhere you need it. Beyond just a writing surface, you get document storage, tool holder, pen and pencil storage and the durability to withstand any working condition.

Part	Internal Dimensions
RAM-HC1U	12.125"l x 9.875"w x 1.375"d

LED Spotlight with 1" Ball

This LED spotlight yields a bright and efficient beam for safety and visibility while maintaining a low power draw. The weather-resistant body shields a 30-degree spotlight LED bulb from the elements. The long cord with standard 12v plug means you can mount this light almost anywhere.

Part	Ball Size	Bulb Specs	Power Cable	Hardwire Cable	Replacement Bulb
RAM-B-152B	1" (B)	30-degree spotlight 4500K color temp	10' long coiled with 12V DC cigarette plug	12" long with 2 ring terminals, female cigarette plug	RAM-B-152-BULB

Safe-N-Secure™ Locking Kit

The Safe-N-Secure™ locking kit is designed to secure and protect the Tough-Tray™. The kit includes a keyed locking knob to upgrade your RAM® Tough-Tray™ to a theft-deterrent solution.

Part	Fits
RAM-234-LK2U	RAM-234-3

Adjustable Laptop Screen Support Arm

The screen support arm with spring loaded keeper travels smoothly with your laptop screen through numerous viewing angles. The support arm keeps your screen steady and secure.

Part	Fits
RAM-234-S2U	RAM-234-3

Self-Leveling Cup Holder with Koozie

Ergonomics and operator comfort are crucial to productivity. The RAM® Mounts cup holder is a self-leveling cup holder that can mount anywhere a RAM® base can be attached. The integrated eyelet and hook provides an optional tethering function, securing any small or open container in harsh environments.

Part	Fits
RAM-B-132BU	cups, cans, bottles or mugs 2.5" - 3.5" diameter

RAM Level Cup™ XL with Koozie

Designed for bigger cups and water bottles, the Level Cup XL keeps your drink upright while moving loads. This kit includes a Level Cup XL with a B-size RAM Mounts ball directly attached. The opening securely grips larger cups and the adjustable bottom piece moves to accommodate taller cups and the rubber feet flex to hold the bottom.

Part	Compatible Container Dimensions
RAP-B-417BU	width range 2.6" - 3.5" height range 3.75" - 11"

Multi-Pad™ Organizer

Keep important documents securely in place and organized with this durable holder. Utilize the integrated magnets to hold the included ferrous metal pen in place. The Multi-Pad™ utilizes several mounting points so it can be easily attached to any RAM® mount with the universal AMPs hole pattern.

Part	Dimensions
RAM-HOL-MP1U	8"l x 4"w

industry recognition

The Material Handling Institute named IntelliSkin™ and GDS Technology™ as the winner of its 2016 Innovation Awards in the IT Product category. The premier material handling trade organization acknowledged the benefit of IntelliSkin™ and GDS® to material handling companies.

The Consumer Technology Association has named IntelliSkin™ and GDS Technology™ as a CES 2016 Innovation Awards Honoree. The honor recognizes outstanding design and engineering in cutting edge consumer electronics products. Products chosen as CES Innovation Honorees reflect innovative design and engineering in some of the most cutting edge tech products and services.

RAM-GDS-SKIN-SAM14U (IntelliSkin™ with GDS Technology™ for Samsung S6)

GDS® Universal Vehicle Phone Dock for RAM® IntelliSkin™ Products

The universal phone vehicle dock with GDS Technology™ is a spring loaded, quick release cradle that offers a secure fit with easy access to the mounted phone. This docking station is compatible with any IntelliSkin™ wrapped phone.

Part Number	RAM-GDS-DOCK-V1U
Input Connector Type	mUSB 2.0
Hole Pattern	2 holes, 1.912" center to center matches cross section of the AMPs hole pattern
Fits	any phone in an IntelliSkin™
Max Power	5V @ 2A*

*mUSB products supporting USB 2.0/3.0 will have a max current of 1.5A

Bottom Cup for Tab-Tite™ and Tab-Lock™ GDS® Vehicle Docks

Convert your existing Tab-Tite™ or Tab-Lock™ tablet mount to a GDS® system by changing the bottom cup. This module is compatible with any device wrapped with IntelliSkin™ and offers charging and data sync while in a mobile setting.

Part Number	Input Connector Type	Number of Pins	Max Power
RAM-GDS-DOCK-V3BU	mUSB 2.0	5	5V @ 2A*

*mUSB products supporting USB 2.0/3.0 will have a max current of 1.5A

GDS® Adjustable Desktop Dock for RAM® IntelliSkin™ Products

This desktop dock will hold any sized IntelliSkin™ wrapped device thanks to its adjustable back support. It is ideal for extra thick devices or those with external accessories attached.

Part Number	RAM-GDS-DOCK-D1AU
Input Connector Type	mUSB 3.0
Dimensions	5.75"w x 4.6875"d x 6"h
Weight	1.7 lbs
Max Power	5V @ 2A*

*mUSB products supporting USB 2.0/3.0 will have a max current of 1.5A

IntelliSkin™ with GDS Tech™

Snap-Con™ GDS® to mUSB 2.0 Adapter

Use a mUSB 2.0 cable to quickly charge and sync any device in an IntelliSkin™ when a GDS® dock is unavailable.

Part Number	RAM-GDS-AD1U
Input Connector Type	mUSB 2.0
Fits	any IntelliSkin™ wrapped device
Max Power	5V @ 2A*

*mUSB products supporting USB 2.0/3.0 will have a max current of 1.5A

GDS® Intelligent 6-Port USB Charger

This USB charger works with the GDS® 6 gang desktop dock to simultaneously charge six IntelliSkin™ wrapped devices. Up to six USB cables connect to the charger, which utilizes one power cord to simplify the charging of multiple devices.

Part Number	RAM-GDS-CHARGE-USB6
Input Connector Type	110 wall plug
Input Range	100V-240V 50/60Hz
Max Power	5V @ 2.4A* per port

*mUSB products supporting USB 2.0/3.0 will have a max current of 1.5A

GDS® 2-Port USB Cigarette Charger

The GDS® 2-Port USB cigarette charger will charge two devices at once. The low-profile design fits easily in your dash without getting in the way of other controls within the vehicle.

Part Number	RAM-GDS-CHARGE-USB2HCIG
Output Connector Type	2 female USB type A
Input Range	12-24 VDC
Max Power	5V @ 2.4A* per port

*mUSB products supporting USB 2.0/3.0 will have a max current of 1.5A

GDS® 2-Port USB Wall Charger

The GDS® 2-port wall charger will charge two devices at once. This low-profile plug has a dual 2.4A output (4.8A total) to assure your devices will charge quickly and efficiently.

Part Number	RAM-GDS-CHARGE-USB2W
Output Connector Type	2 female USB type A
Input Range	100V-240V 50/60Hz
Max Power	5V @ 2.4A* per port

*mUSB products supporting USB 2.0/3.0 will have a max current of 1.5A

Stand Off Risers for GDS® Vehicle Docks

These stand off risers provide extra space for IntelliSkin™ wrapped tablets with accessories such as the HandStand™ Hand Strap and Kick Stand. The included hardware allows for easy attachment to GDS® vehicle docks.

Part Number	RAM-HOL-TAB-RISER2U
Fits	any GDS® vehicle dock

HandStand™ - Hand Strap and Kick Stand for RAM® IntelliSkin™ Products

The HandStand™ provides an adjustable hand strap that is compatible with a gloved hand and can be rotated 360 degrees. An integrated kick stand allows for positioning the tablet on a flat surface for on the go operation.

Part Number	RAM-GDS-HS1U
Fits	any HandStand™ compatible IntelliSkin™

*when using an IntelliSkin™ with a HandStand™ in a GDS® vehicle dock, the RAM-HOL-TAB-RISER2U is needed

Shoulder Strap for RAM® IntelliSkin™ Products

Secure devices while remotely processing orders or working on the move. The shoulder strap is a durable and ergonomic choice.

Part Number	RAM-GDS-SS1U
Fits	any shoulder strap compatible IntelliSkin™

IntelliSkin™ with GDS Tech™

GDS® Step Down Converter Charger

This is the ideal solution for providing power to any 5V device on your forklift. This charger features a variety of power options such as male micro-B USB and female USB type A connectors that can connect to your GDS® dock.

*mUSB products supporting USB 2.0/3.0 will have a max current of 1.5A

Part Number	Output Connector Type	Input Range	Max Power	Input Cable Length	Output Cable Length
RAM-GDS-CHARGE-V1U	male micro-B USB	10-50 VDC	5V @ 1.5A*	1.2 Meters	1.2 Meters
RAM-GDS-CHARGE-V2U	female USB type A	10-50 VDC	5V @ 1.5A*	1.2 Meters	1.2 Meters
RAM-GDS-CHARGE-V4U	male micro-B USB	11.5-36 VDC	5V @ 2.5A*	1.2 Meters	1.2 Meters

GDS® Cables

Deliver power and data wherever it is needed with GDS® cables. These reliable and efficient cables offer the flexibility to place docks where they are most effective and connect to your power supply through a USB Type A plug.

Part Number	Connector Type
RAM-GDS-CAB-MUSB2-1	mUSB 2.0
RAM-GDS-CAB-MUSB290-1	90-degree mUSB 2.0
RAM-GDS-CAB-MUSB3-1	mUSB 3.0

10' Power Cord with Female Cigarette Plug

The 10' long, non-coiled cable with two ring terminals is designed to route to either the vehicle battery or a fuse panel for a permanent hard-wire power installation.

Part Number	RAM-CIG-F-10
Input Connector	two .31 ID ring terminals
Output Connector	female cigarette plug
Cable Length	10'

partners & popular applications

RAM® Mounts enable the use of tablets, rugged devices and printers on Crown forklifts by attaching to the Crown Work Assist® platform. This adapter is offered with three different ball sizes to support devices of different weights.

Part Number	Ball Size	Includes
RAM-B-202U-CRO2	1" (B)	ball base for Work Assist®
* RAM-202U-CRO1	1.5" (C)	ball base for Work Assist®
* RAM-D-202U-CRO1	2.25" (D)	ball base for Work Assist®
* RAM-101U-B-CRO1	1.5" (C)	ball base for Work Assist®, short arm, round ball base with AMPs pattern
* RAM-101U-CRO1	1.5" (C)	ball base for Work Assist®, standard arm, round ball base with AMPs pattern
* RAM-101U-D-CRO1	1.5" (C)	ball base for Work Assist®, long arm, round ball base with AMPs pattern

*steel reinforced post
